

## DATA appendix

The first set of charts is graphs that look at the character and how much they use a certain emotion in their language. This was done for movies 4,5,6 or the original trilogy. Y is the character name and X is the count of emotions with a color key for the emotion.

### MOVIE 4

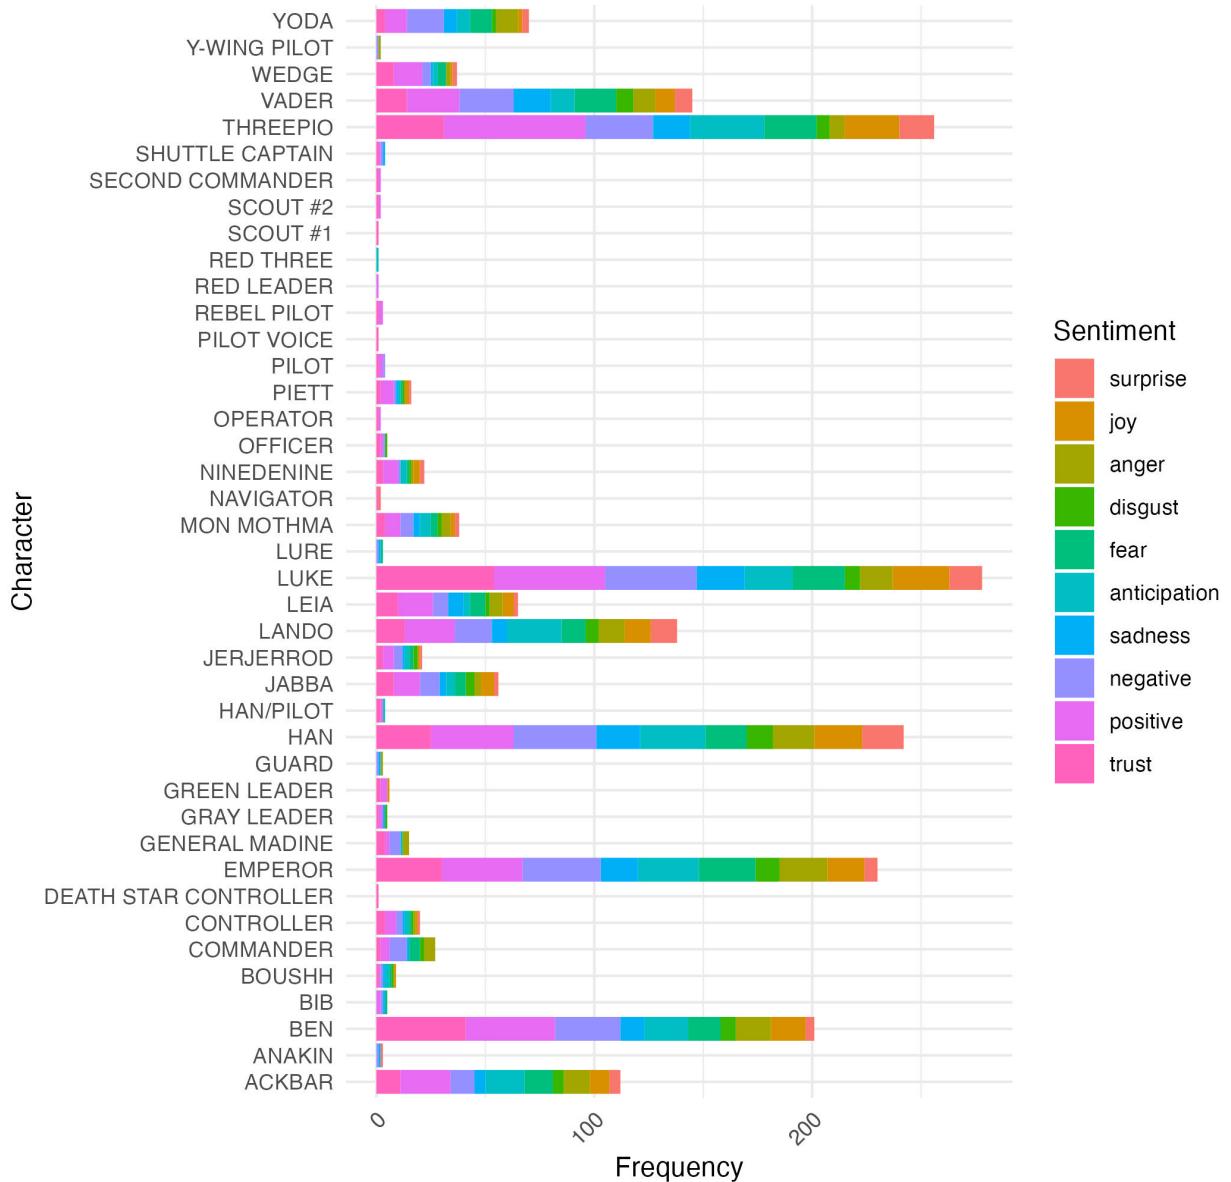

## MOVIE 5

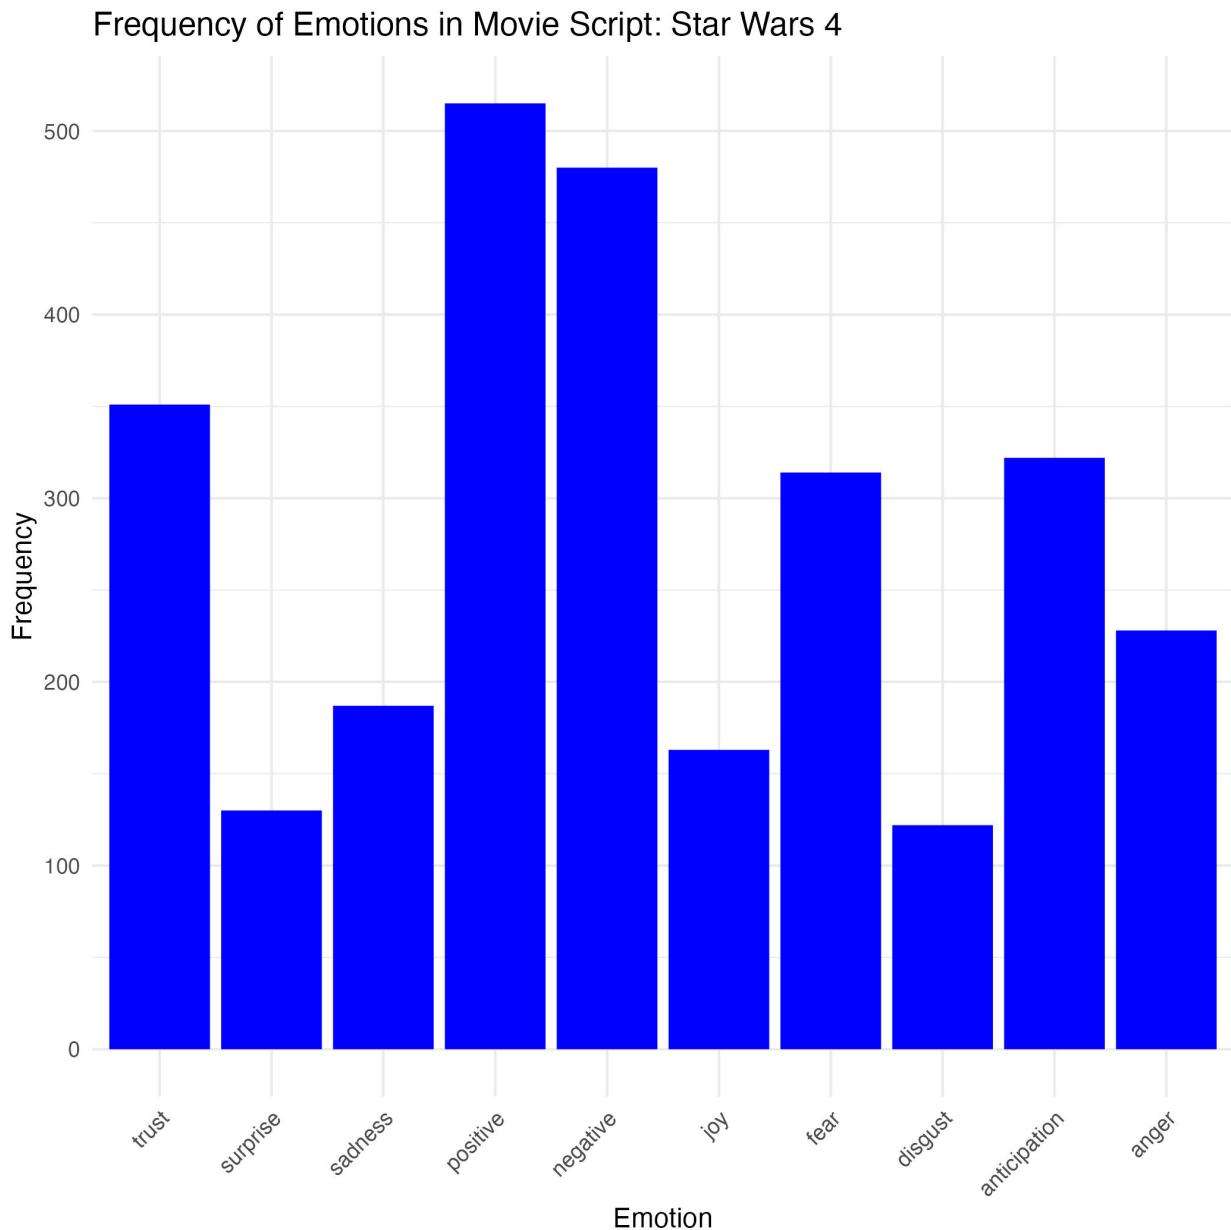

## MOVIE 6

## Sentiment Analysis of Movie Script

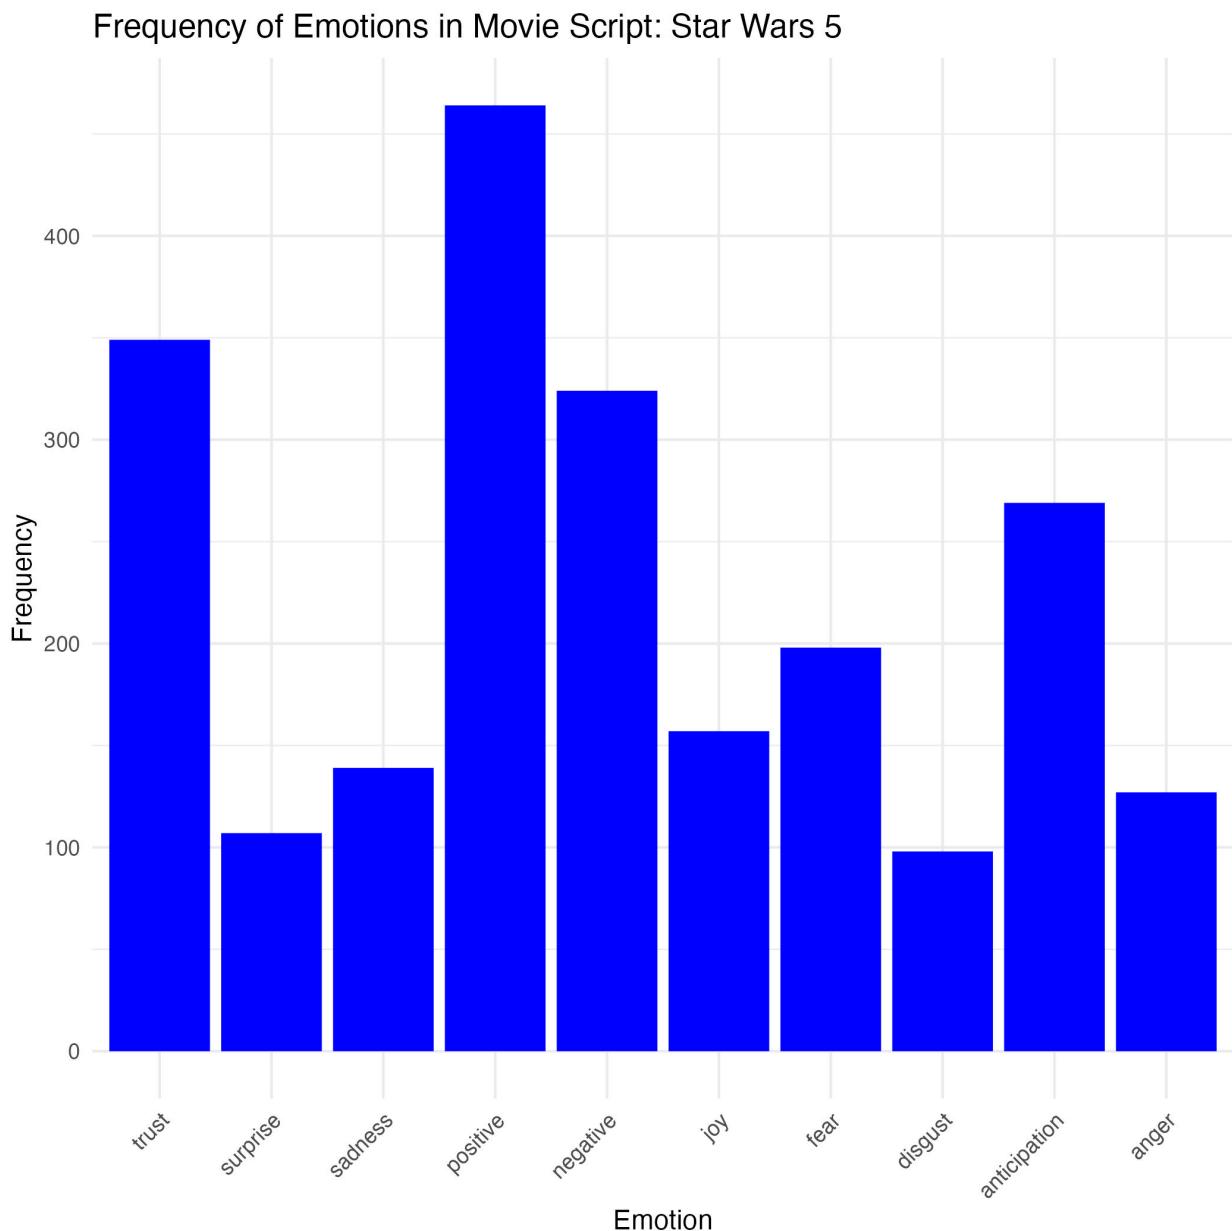

These next set of graphs are for movies 4,5,6 and they include just the number of occurrences of each emotion in the dialogue. So on the X we have emotion and Y is the count.

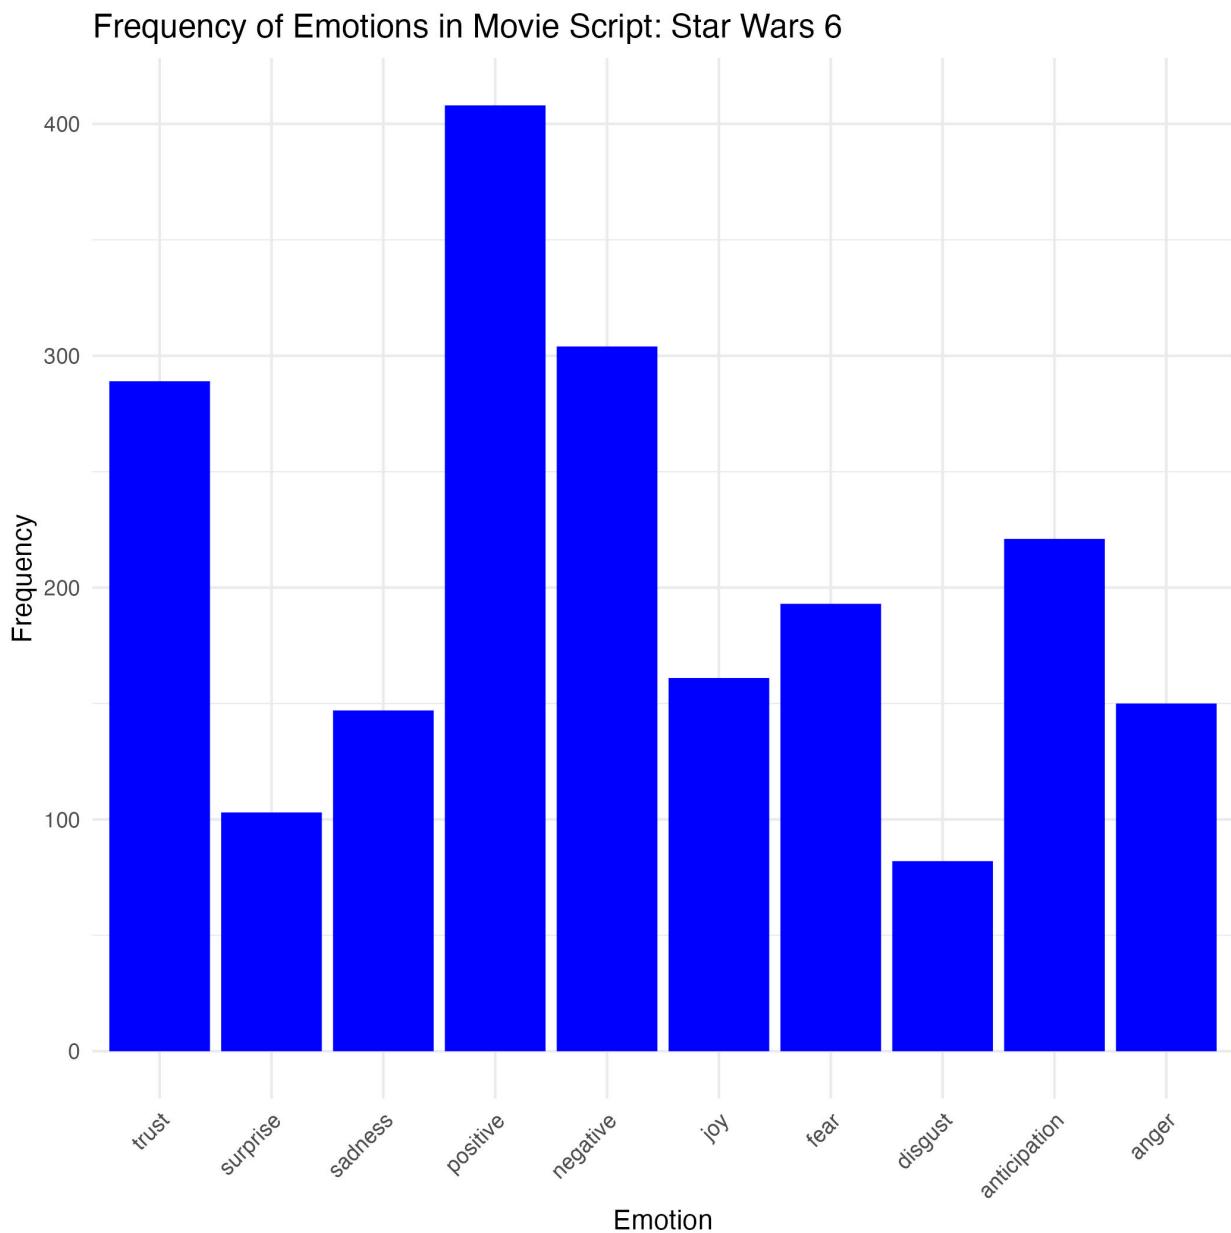

#### MOVIE 4

## MOVIE 5

## MOVIE 6

These next figures are word clouds based off the most common words used in each movie.
